STAFFING IS JUST THE BEGINNING

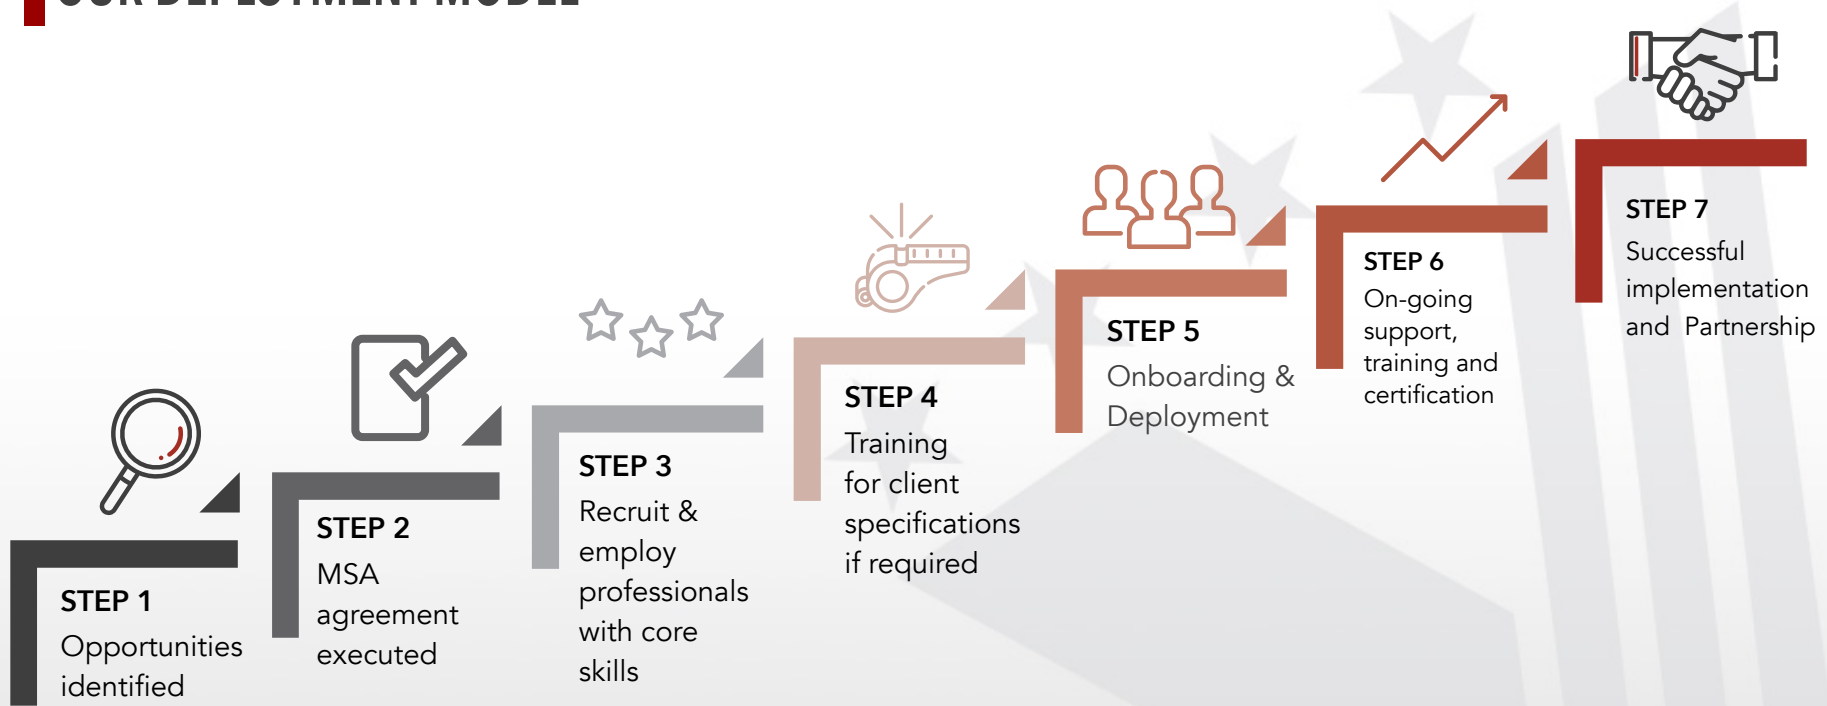

We build technology solutions that accelerate your business.

From straight up Staffing to Software Development to Business Process Outsourcing, we've got you covered.

The key is
collaboration...
we specialize in
customized, highly
tailored solutions.

OUR DEPLOYMENT MODEL

SOLUTIONS – MODERN TECHNOLOGY PLATFORMS

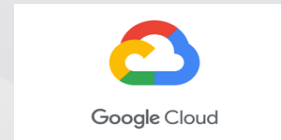

Modernized
Technology

Architecture | Software Delivery | Testing | DevOps | Cloud | Security

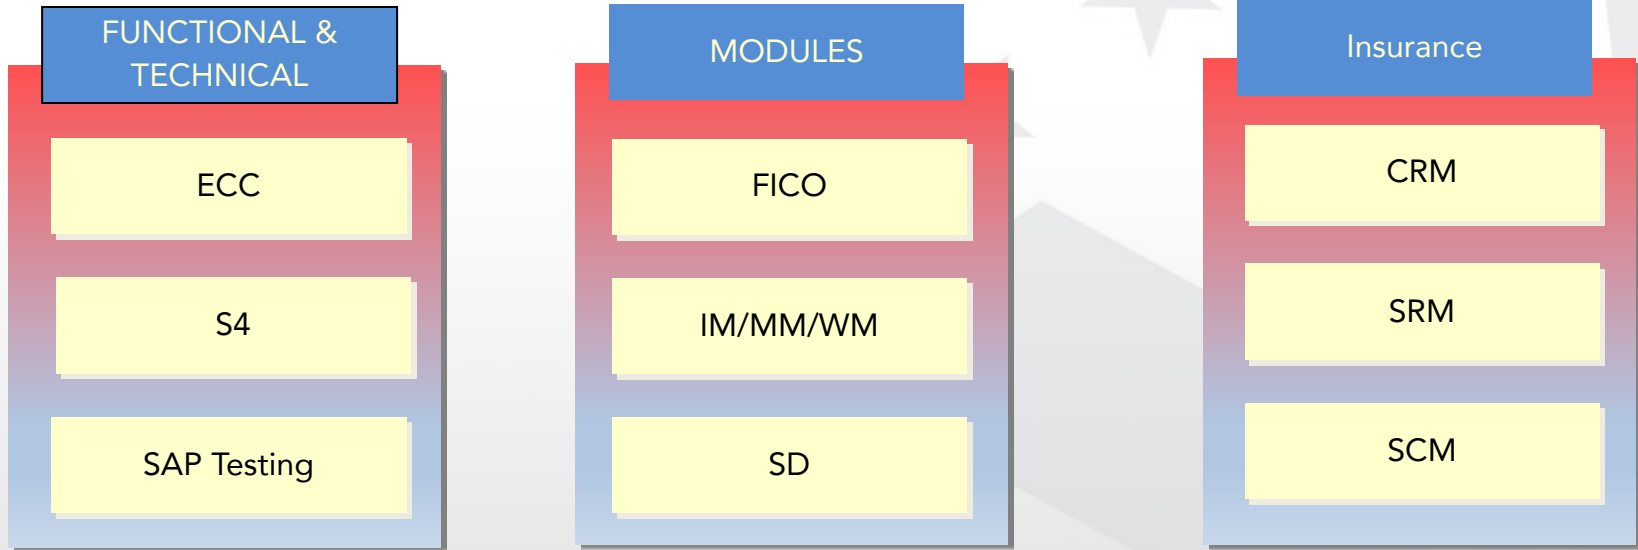

Speed & Quality

- ✓ Full stack expertise from design to development
- ✓ Wide range of expertise
- ✓ Teams use a highly-automated DevOps stack for speed
- ✓ Take advantage of a library of pre-built components

ERP EXPERTISE

Our SAP staffing services help clients work with smart SAP ERP consultants. No matter what your project is, we have the right individuals to provide the SAP expertise.

OUR FOCUSSED APPROACH

We specialize in the placement of Entry level to middle and senior management professional across the multiple industries. Our delivery focused approach encompasses:

- Global sourcing and delivery capability critical to IT services
- Deep knowledge, not just familiarity, on their industry vertical and sub-vertical
- Familiarity with market actualities
- Risk Management
- Ability to scale and rapidly
- Potential for strategic partnerships
- Provide an integrated operations and technology offering

DIFFERENTIATORS

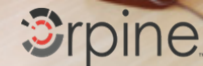

Orpine provides ongoing support to its partners to transform and transition through training and development programs, enabling them with skills and opportunities.

Our Partnership with Universities:

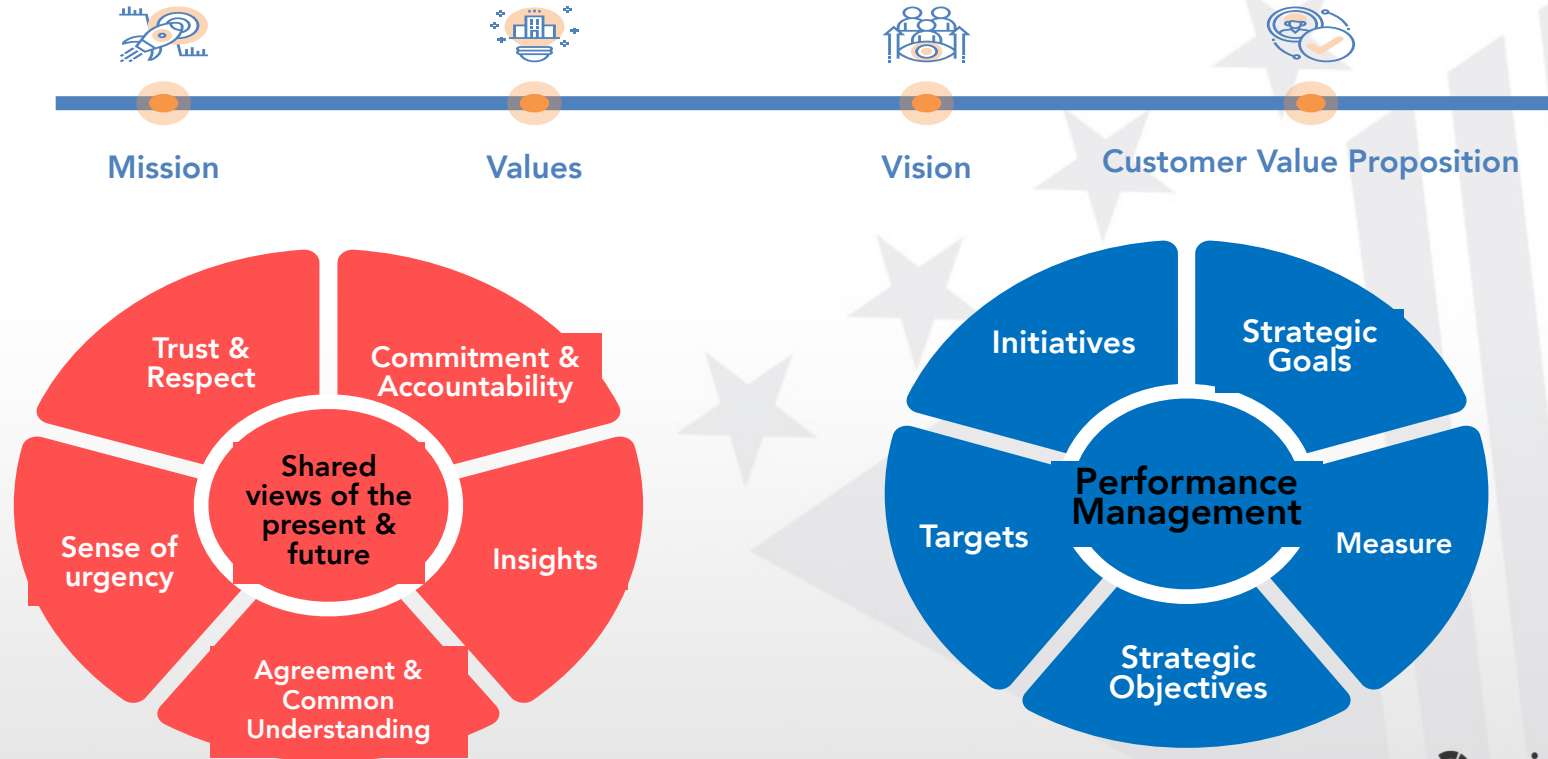

Orpine believes in tomorrow's talent, we enable recent graduates by connecting them with IT projects placement and support, providing a leg-up to today's brilliant college graduates.

Our Partnership with Veterans:

Orpine is proud to support the Veteran community. Vetworks Solutions, a unique partnership between Vetworks and Orpine, is designed to help US Veterans, in transitioning them into the IT job world with continuous training and development programs and placement.
